

Arjun Mehta

Software Engineering Student

Dehradun, Uttarakhand, India | +91 98765 43210 | arjun.mehta.dev@gmail.com

linkedin.com/in/ariunmehta-dev | github.com/ariunmehta-dev | Portfolio: ariunmehta.dev

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student with hands-on experience building full-stack web applications, RESTful APIs, and machine-learning prototypes. Strong foundation in data structures, algorithms, and system design, with a track record of delivering production-quality projects in team settings. Seeking a Software Development Engineer internship to contribute to scalable, user-focused products.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering 2022 – 2026

Graphic Era Institute of Technology, Dehradun, Uttarakhand

CGPA: 8.74 / 10.0 | Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, OOP with Java

Senior Secondary (CBSE), PCM with Computer Science 2021 – 2022

Delhi Public School, Dehradun | 91.2%

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, SQL, TypeScript

Web Technologies: React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, REST APIs

Databases: MySQL, MongoDB, PostgreSQL, Firebase

Tools & Platforms: Git, GitHub, Docker, Postman, Linux, VS Code, Figma

Core Concepts: Data Structures & Algorithms, OOP, System Design Basics, Agile/Scrum

PROJECTS

CampusConnect — Full-Stack Student Networking Platform

Personal Project | React, Node.js, Express, MongoDB | Aug 2025 – Nov 2025

- Built a full-stack platform enabling students to share notes, join study groups, and post campus events, used by 300+ students across 4 colleges during a closed beta.
- Designed a RESTful API with JWT-based authentication and role-based access control, reducing unauthorized access attempts to zero during testing.
- Implemented real-time notifications using Socket.IO and optimized MongoDB queries with indexing, cutting average response time from 480ms to 140ms.

SmartExpense — Personal Finance Tracker with ML Insights

Personal Project | Python, Flask, scikit-learn, SQLite | Feb 2025 – Apr 2025

- Developed a web app that categorizes bank-statement transactions automatically using a trained Naive Bayes classifier, achieving 89% categorization accuracy on test data.
- Created interactive spending dashboards with Chart.js and exportable monthly PDF summaries.
- Containerized the application with Docker and deployed it on Render for public demo access.

PathFinder Visualizer — Algorithm Visualization Tool

Personal Project | JavaScript, HTML5 Canvas | Sep 2024 – Oct 2024

- Built an interactive grid-based visualizer for Dijkstra's, A*, BFS, and DFS pathfinding algorithms with adjustable grid size and wall placement.
- Optimized rendering with requestAnimationFrame, supporting smooth visualization of grids up to 60x40 cells.

EXPERIENCE

Software Engineering Intern — Nimbus Cloud Solutions Pvt. Ltd.

Remote | May 2025 – Jul 2025

- Contributed to a customer-facing analytics dashboard used by 50+ enterprise clients, building 6 reusable React components that reduced future feature-development time by an estimated 20%.
- Fixed 18 backend bugs in a Node.js/Express microservice and wrote unit tests with Jest, raising module test coverage from 61% to 84%.
- Collaborated with a team of 5 engineers in two-week Agile sprints, participating in daily stand-ups, sprint planning, and code reviews via GitHub pull requests.

CERTIFICATIONS

- Meta Front-End Developer Professional Certificate — Coursera (2025)
- Data Structures and Algorithms — GeeksforGeeks (2024)
- AWS Academy Cloud Foundations — Amazon Web Services (2024)

ACHIEVEMENTS

- 1st Runner-Up, Smart India Hackathon (Institute Level), 2025 — team of 5, built a civic issue reporting app.
- Ranked in the top 8% among 12,000+ participants in the CodeChef Starters 130 rated contest.
- Selected as a Google Developer Student Clubs (GDSC) Core Team Member, 2024–2025.

LANGUAGES

English (Fluent), Hindi (Native)
